QUESTIONS

Can I get a Covid test if I don't have health insurance?

Yes, at these sites it is not necessary to have insurance in order to be tested, and testing is free for uninsured individuals. Check with the site for the most recent information regarding cost

Will being tested affect my migration status?

No, the test is confidential. Test sites often request ID for the purpose of correctly matching test results, but forms of ID other than a driver's license are acceptable (such as a municipal ID or passport) and will not be shared outside of the clinic or test site. In the case of a positive result, participation in contact tracing is voluntary and will never involve sharing sensitive information like your immigration status or social security number. For more information, visit: https://www.phila.gov/programs/coronavirus-disease-2019-covid-19/contact-tracing/

What can I do if I am afriad of losing my wages or being fired for testing positive?

All workers have rights. Call Justice at Work at 215-733-0878 or Community Legal Services at 215-981-3700 for free legal aid for eligible individuals.
